

NoWait™ Delta8 Under Tongue Strips

Product Info and Usage Overview

**** THIS IS NOT MEDICAL ADVICE. PLEASE DISCUSS WITH YOUR DOCTOR ****

**** YOU MAY TEST POSITIVE FOR THC/DELTA9 IN A BLOOD TEST.**

** Always best to start dosages slow and low

** A person's experience will vary

** The strips contain 25mg of premium ISOLATE Delta 8 ingredients whereas for some people, especially if sensitive, its best to start with HALF of a strip.

** Many people call it "half pot but smoother" – kind of like Bud Light is to Bud

** You open the pouch on the corner that is not dot sealed, then pull it open.

** You wet the strip on your tongue and then let it dissolve under your tongue – do not swallow it or its less effective due to stomach acids!

Aspect/Effect

	How much to take?	When to take?	Duration
